

LESSON 5 | EMERGENCY, INCIDENT REPORTING & FINAL INTEGRATED ROLE-PLAY

Lesson 5 Emergency Communication Roadmap

第五課：緊急情況、事故匯報及綜合角色扮演

Lesson outcomes 課堂目標

1. Give short and clear emergency instructions. 2. Tell people not to use the lift and where to go. 3. Report an incident using: what happened, where, when, who, action taken.	4. Handle a mixed scenario combining greeting, registration, complaint, phone call and emergency response. 5. Demonstrate practical improvement through final role-play performance.
---	---

Key principle:

In an emergency, **use short sentences**, **exact locations and clear next actions**. Do not guess, argue, diagnose or promise a response time you cannot confirm.

PAIR WORK | FINAL SITUATION CARDS 1-4

Final Integrated Role-play — Manage the Emergency, Not Just the Sentence

最終綜合角色扮演：處理完整緊急情境，而非只背誦句子

Work in pairs. Student B should not reveal everything at once. Student A = Security / CS. Ask only for the missing critical information, give one clear safety instruction, then report / escalate and state the next action.

Situation Card 1 — Water Leak + Power Failure 情境卡一

Student A — Security / CS	Student B — Tenant / Visitor
• Confirm exact floor / suite / affected area. • Ask whether water is near electrical equipment or a walkway. • Keep people away from the area. • Report water leakage + power failure separately. • Do not promise restoration time.	• 18/F, outside Suite 1807. • Water is coming from the ceiling. • Lights in the corridor have gone out. • A socket is nearby. • Extra: “Can we just walk through quickly?”

Tip phrases: Please keep clear of the wet area. | Is the water close to any electrical equipment? | I'll escalate both issues and update you once we receive verified information.

Situation Card 2 — Suspicious Person Near Restricted Door 情境卡二

Student A — Security / CS	Student B — Tenant / Visitor
• Ask for exact location + description / behaviour. • Tell the reporter not to confront the person. • Keep a safe distance and protect the restricted area. • Contact security supervisor / management. • Record only observed facts, not guesses.	• G/F service corridor near a restricted door. • Unknown person is trying several access cards. • They keep looking around and trying the handle. • You do not know who they are. • Extra: “Should I go over and ask what they're doing?”

Tip phrases: Please do not confront the person. | May I confirm the exact location and what you can see them doing? | I'm contacting the security team now.

Situation Card 3 — Aggressive Visitor 情境卡三

Student A — Security / CS	Student B — Tenant / Visitor
• Stay calm; keep a safe distance. • Use short boundary-setting language. • Do not argue or threaten. • Call supervisor / additional security if needed. • If risk increases, prioritise people's safety and access control.	• Visitor is angry about being refused access. • Raises voice and moves close to the counter. • Says: “Open the gate now. I'm going upstairs.” • Extra: bangs the counter once. • Do not give a reason not supported by the facts.

Tip phrases: I want to help, but I need you to step back and speak calmly. | I'm contacting my supervisor for assistance. | Please remain on this side of the access point.

Situation Card 4 — FINAL MIXED SCENARIO 情境卡四

Student A — Security / CS	Student B — Tenant / Visitor
• Start with visitor registration / clarification. • A complaint or urgent request interrupts the conversation. • Then a fire alarm sounds: stop the normal process and switch to evacuation language. • Give the visitor a clear no-lift instruction and safe next step. • After evacuation, give a short incident report using WHAT → WHERE → WHEN → WHO → ACTION → STATUS.	• Visitor: Sophia Lau, Vertex Media, 26/F, no host confirmation yet. • While waiting, another tenant reports a strong burning smell near Lift Lobby B. • Then the fire alarm sounds. • Visitor says: “Can I just take the lift? I'm already late.” • Extra: after evacuation, supervisor asks you for a 30-second report.

Tip phrases: Please do not use the lift. | Proceed by the nearest safe staircase. | I'll report the exact location and the information received. | Re-entry requires the authorised all-clear.
