Part of speech: adjective (形容詞) / adverb-related form (相關副詞) / noun/verb-related form (相關名詞 / 動詞)

Your sentence:

> "...he was not the kind of person you forget **easily**."

Meaning in this passage

Here, **easily** means **without much difficulty or effort**.

The speaker means that Mr. Wong is so memorable that it is **not easy to forget him**.

繁體中文： **不需要很多努力、困難或阻力就能做到；容易地**

中文翻譯：

> "...he was not the kind of person you forget **easily**."

「.....他不是那種你會**輕易忘記**的人。」

Here:

forget easily = 很容易便忘記；不需要太多時間或困難便不再記得

1. **easy = not difficult (事情 / 任務) — 容易的；不難的**

This is the basic and most common meaning.

Meaning: Not difficult to do, understand, achieve, solve, or deal with.

Practice 1

> "The first question was quite **easy**."

「第一條題目相當**容易**。」

Practice 2

> “This machine is **easy** to use.”

「這部機器很**容易使用**。」

easy = 不需要很多努力、技巧、時間或思考便能完成或理解的

Common:

- * easy question
- * easy task
- * easy to use
- * easy to understand
- * easy to solve

These remain one underlying sense.

2. **easy** = requiring little effort/pressure (生活 / 工作 / 節奏) — 輕鬆的 ; 不吃力的

Easy can describe a situation, lifestyle, pace, job, or period that does not demand much effort or create much pressure.

Practice 3

> “He has a fairly **easy** job.”

「他的工作相當**輕鬆 / 不太吃力**。」

Practice 4

> “We had an **easy** afternoon with nothing urgent to do.”

「我們過了一個很**輕鬆**的下午，沒有甚麼急事要做。」

easy = 所需體力、精神壓力或投入較少，整體感覺輕鬆而不吃力的

This is closely related to Meaning 1, but the focus shifts from:

> difficult vs not difficult

to:

> demanding vs relaxed

For database counting, I would probably **merge** this with #1 under the broader concept:

> **requiring little effort or difficulty**

3. **easy** = calm / relaxed / not strict (人 / 態度) — 隨和的 ; 放鬆的

A person or manner can be **easy** when relaxed, calm, and not demanding.

Practice 5

> “She has an **easy** manner that makes people feel comfortable.”

「她的態度很**隨和、放鬆**，讓人感到自在。」

Practice 6

> “He is very **easy** to talk to.”

「他很**容易相處 / 很好聊天**。」

easy = 態度放鬆、隨和、不給人壓力，令人容易接近或相處

This is distinct enough to show separately because the Chinese meaning becomes **隨和 / 好相處**, not simply **容易**.

4. **easy** = not strict / permissive (規管 / 要求) — 寬鬆的 ; 不嚴格的

Easy can describe rules, standards, or treatment that are not strict or demanding.

Practice 7

> “The teacher was fairly **easy** on late homework.”

「老師對遲交功課的處理相當**寬鬆**。」

Practice 8

> “The rules are quite **easy** compared with last year.”

「跟去年相比，規則相當**寬鬆**。」

easy = 對要求、規則或處理方式不嚴格、不苛刻

This is related to the broader “not demanding” idea, but practical enough to flag.

5. **easy = likely / readily possible (可能性) — 容易發生的 ; 很可能的**

Sometimes **easy** means something can happen readily.

Practice 9

> “It is **easy** to make mistakes when you are tired.”

「疲倦時很**容易**犯錯。」

Practice 10

> “It’s **easy** for misunderstandings to happen online.”

「網上很**容易**出現誤會。」

****easy = 某件事情很容易發生 , 所需條件很少或發生機會較高****

This is still connected to Meaning 1, so I would merge it there for core counting.

6. **easy = comfortable / free from worry (生活狀態) — 安逸的 ; 舒適的**

A life or situation can be **easy** when it is comfortable and relatively free from difficulty or hardship.

Practice 11

> “They had an **easy** life after retirement.”

「他們退休後過着相當**安逸舒適的生活**。」

Practice 12

> “Money does not always make life **easy**.”

「金錢不一定能令生活變得**安逸 / 輕鬆**。」

****easy = 生活或情況較少困難、壓力或負擔 , 令人感到安逸舒適****

Again, this is related to the broad “not difficult/not demanding” concept.

7. **easy** = gradual/gentle (坡度 / 動作) — 平緩的 ; 柔和的

In some physical descriptions, **easy** can mean gentle rather than steep, abrupt, or forceful.

Practice 13

> “The path has an **easy** slope.”

「這條小路的坡度很**平緩**。」

Practice 14

> “Use an **easy** movement when stretching your shoulder.”

「伸展肩膀時要用**輕柔、平緩的動作**。」

easy = 程度平緩、柔和，不劇烈或不突然

This is lower-priority but still established modern English.

Related form: **easily**

Easily has several useful uses.

easily = without difficulty (輕易地)

This is the meaning used in your passage.

Practice 15 — Original

> “He was not the kind of person you forget **easily**.”

「他不是那種你會**輕易忘記**的人。」

Practice 16

> “She solved the problem **easily**.”

「她**輕鬆地**解決了這個問題。」

****easily = 不需要很多努力或困難便能做到****

**easily = by a clear margin (明顯地 ; 遠遠) **

A common intensifying use:

Practice 17

> “She was ****easily**** the best speaker of the evening.”

「她****明顯是 / 毫無疑問是****當晚最出色的講者。」

Practice 18

> “This is ****easily**** the most useful feature.”

「這****顯然是 / 無疑是****最有用的功能。」

****easily = 程度或優勢非常明顯，遠遠超過其他選項****

This is genuinely useful and should not be confused with “without difficulty.”

Related form: **ease**

****Ease**** has several related meanings.

**ease — noun = lack of difficulty (容易 ; 輕鬆) **

Practice 19

> “She completed the task with ****ease****.”

「她****輕鬆地****完成了任務。」

****with ease = 毫不費力地 ; 輕鬆地****

**ease — noun = comfort / absence of tension (自在 ; 舒適) **

Practice 20

> “He spoke with complete **ease**.”

「他說話時十分**自在放鬆**。」

Practice 21

> “She quickly put the guests at **ease**.”

「她很快便令客人感到**自在放鬆**。」

ease = 缺乏緊張、壓力或不適的舒適狀態

ease — verb = reduce difficulty/pain/tension (減輕)

Practice 22

> “The medicine helped **ease** the pain.”

「藥物有助**減輕**疼痛。」

Practice 23

> “The new measures should **ease** traffic congestion.”

「新措施應該有助**緩解**交通擠塞。」

ease = 令困難、疼痛、壓力或嚴重程度降低

This is a useful family extension.

Fixed expression: **take it easy — 放輕鬆；別太操勞**

Practice 24

> “You’ve been working all day. **Take it easy** tonight.”

「你工作了一整天，今晚就**放輕鬆一點 / 別太操勞**。」

Practice 25

> “The doctor told him to **take it easy** for a few days.”

「醫生叫他幾天內**多休息、不要太操勞**。」

****take it easy = 放慢節奏、減少努力或壓力，保持放鬆****

This is a common fixed expression rather than a new core lexical meaning.

Fixed expression: ****go easy on + person/thing — 對.....手下留情 / 少用一點****

Practice 26

> “Go ****easy on**** him—he’s still learning.”

「對他****寬容一點 / 別太苛刻****，他還在學。」

Practice 27

> “Go ****easy on**** the salt.”

「鹽****少放一點****。」

****go easy on someone/something = 對某人不要太苛刻，或對某物不要用太多****

This is idiomatic and should remain a fixed-expression extension.

Important distinction: ****easy vs simple****

****easy****

means:

> not difficult to do

****simple****

means:

> not complicated in structure or explanation

Something can be:

> simple but not easy

For example:

> “The idea is simple, but doing it is not easy.”

「概念很簡單，但實行並不容易。」

So:

****simple = 不複雜****

****easy = 不難****

This is a very important learner distinction.

Important distinction: ****easy vs effortless****

****easy****

= requires relatively little difficulty or effort

****effortless****

= appears to require almost no effort at all

> “She made it look effortless.”

often means:

> 她做得看起來毫不費力。

So ****effortless**** is usually stronger.

Important distinction: ****easy vs comfortable****

****easy****

can describe a task, life, person, pace, etc.

****comfortable****

focuses more on physical or emotional comfort.

> easy job = 工作不太難 / 不太辛苦
> comfortable chair = 坐得舒服的椅子

They overlap in some lifestyle contexts, but not generally.

Important distinction: **easy** vs **relaxed**

easy

can describe a person/manner as undemanding or calm.

relaxed

focuses directly on lack of tension or stress.

> “He has an easy manner.”

= 他態度隨和。

> “He looks relaxed.”

= 他看起來很放鬆。

Family-extension note

The practical modern family includes:

* **easy**
* **easier**
* **easiest**
* **easily**
* **ease**

Useful constructions include:

* easy to do
* easy for someone
* easy life
* easily forgotten
* with ease
* at ease
* take it easy

* go easy on

The key learner contrasts are:

* **easy vs simple**

* **easily = without difficulty**

* **easily = clearly/by a wide margin**

* **ease = comfort or reduction of difficulty**

The Golden Manual says useful grammatical patterns and related forms should be included, but closely related contexts should still be merged where one broad definition works.

For your original sentence

> "...he was not the kind of person you forget **easily**."

The exact meaning is:

easily = 不需要很多努力、困難或時間便能做到

So:

> **forget someone easily**

= **很輕易便忘記某人**

and:

> **not the kind of person you forget easily**

= **不是那種很容易令人忘記的人**

For your database, I would count **4 genuinely useful core meanings for *easy***:

1. **not difficult / requiring little effort**
2. **relaxed, undemanding, or easygoing in manner/situation**
3. **not strict / permissive**
4. **gentle or gradual**

For **easily**, I would preserve **2 important meanings**:

1. **without difficulty**
2. **clearly/by a wide margin**

I would merge **easy life / easy job / easy task** under the broader low-difficulty/low-demand concept rather than over-split them.
