Key contrasts

28. solid vs hard

****hard****

= resistant to pressure; not soft

****硬的****

****solid****

= firm, substantial, not hollow/liquid, or strongly built

****堅實的；固體的；實心的****

A thing can be solid without being especially hard.

29. solid vs sturdy

****sturdy****

= strongly built and unlikely to break

****結實耐用的****

****solid****

= can also mean strongly built, but has many broader senses

Compare:

> a ****sturdy chair****

> 結實的椅子

> a ****solid chair****

> 扎實、穩固的椅子

30. solid vs heavy

****heavy****

= having a lot of weight

****重的****

****solid****

in the passage means substantial/well-made, not necessarily physically heavy.

So:

> felt ****solid**** in my hand

does not simply mean:

> felt heavy

It suggests:

****有份量、扎實、做工可靠****.

31. solid vs substantial

****substantial****

= large, strong, important, or considerable

****實在的；可觀的；堅固的****

****solid****

often emphasizes firmness, reliability, or dependable quality.

They overlap in phrases like:

> solid meal / substantial meal

but are not universally interchangeable.

32. solid vs stable

****stable****

= not likely to change, fall, collapse, or become unstable

****穩定的****

****solid****

= can imply strength and reliability, but not necessarily lack of change.

Compare:

> stable prices

> 穩定價格

> solid evidence

> 有力證據

33. solid vs reliable

****reliable****

= can be trusted to work or behave consistently

****可靠的****

****solid****

can imply reliability plus strength or quality.

> solid performer

> = consistently dependable performer
