= continue typing steadily

****不停打字****

Examples

1. She sat at her desk **typing away**.
她坐在書桌前**不停地打字**。
2. He was **typing away** on his laptop.
他正在手提電腦上**不停輸入文字**。

Key contrasts

34. type vs kind

type

= category based on shared characteristics

類型

kind

= very broad everyday word for category

種類

Compare:

> What **type of phone** is this?

> 這是甚麼類型 / 型號的手機？

> What **kind of music** do you like?

> 你喜歡哪一類音樂？

They often overlap.

35. type vs sort

sort

= kind/category, especially common in everyday BrE

種類；類型

type

= often sounds slightly more systematic or classificatory

Compare:

> this type of problem

> this sort of problem

Both can mean:

****這類問題****

36. type vs category

****category****

= formally defined group in a classification system

****類別****

****type****

= can be formal or everyday and often refers to shared characteristics

****類型****

37. type vs model

****model****

= specific product version/design

****型號****

****type****

= broader category

Compare:

> electric car = a ****type**** of car

> 電動車 = 一種類型的車

> Model Y = a ****model****

> Model Y = 一個具體型號

38. type vs font

****type****

= printed characters generally, or traditional printing terminology

****font****

= specific digital or typographic implementation/style in everyday computing usage

****字體****

****typeface****

= underlying visual design of a family of characters

In ordinary modern use, learners will usually see ****font**** more often than bare ****type**** for computer text appearance.

39. type vs write

This is the passage's most important contrast.

****type****

= create text using a keyboard or similar device

****打字****

****write****

= produce words generally; can include handwriting

****寫****

Compare:

> I ****typed**** the essay on my laptop.

> 我用手提電腦把文章打出來。

> I ****wrote**** the note by hand.

> 我手寫了那張便條。

In everyday speech, ****write**** can also include composing text digitally, but ****type**** specifically describes the physical input method.

40. type vs enter/input

****type****

= press keyboard keys to produce text

****enter/input****

= broader technical terms for putting information into a system

Compare:

> ****Type**** your name.

> 打出你的名字。

> **Enter** your account number.

> 輸入你的帳戶號碼。

You may enter information by typing, scanning, selecting, etc.

Meaning map

The central noun concept of **type** is:

a category defined by shared characteristics

From this develop:

General category

type of music

→ **類型**

People

my type

→ **喜歡的類型**

Classification

blood type

→ **血型**

Computing

data type

→ **資料型別**

A separate historical printing branch gives:

Printed characters

type

→ **印刷字體 / 鉛字**

From that develops the verb:

Keyboarding

type a document

→ **打字**

and related forms:

* typing → **打字**

* typist → **打字員**

* typewriter → **打字機**

* typeface → **字體**

* typography → **排版設計**

The passage uses the keyboard-input verb:

> people **type** far more than they write by hand

> → **現在人們打字遠多於手寫**

MCQ-ready master list

Form / sense	MCQ-ready Traditional Chinese meaning

typical	具有某一類事物通常特徵的；典型的

atypical	不符合一般典型特徵的；非典型的	
the type to do something	是那種很可能會做某事的人	
not my type	不是自己喜歡或偏好的類型	
type away	持續不停地打字	

Passage recap

> “...nowadays most people **type** far more than they write by hand.”

Here:

type = **to produce written text by pressing keys on a keyboard**

Best Traditional Chinese:

* **打字**
* **鍵入文字**
* **用鍵盤輸入**

Natural contextual translation:

因為現在大多數人打字的時間遠比手寫多。

Passage MCQ-ready meaning

type
= **to write or enter text using a keyboard**

打字；鍵入

The crucial contrast is:

> **type**
> → 用鍵盤輸入

> **write by hand**
> → 用手拿筆寫

And this passage specifically uses that contrast to explain why a **fountain pen** may initially seem less exciting in a digital world.
