---

# Meaning map

The central concept of **\*\*package\*\*** is:

**\*\*put several elements together into one contained, usable, or presentable unit\*\***

From this develop:

#### Passage

packaging desserts

→ **\*\*甜品包裝\*\***

#### Parcel

a package arrives

→ **\*\*包裹\*\***

#### Commercial bundle

package deal

→ **\*\*套裝方案\*\***

#### Travel

package holiday

→ **\*\*套裝旅行\*\***

#### Employment

salary package  
→ \*\*薪酬待遇組合\*\*

### ### Software

software package  
→ \*\*軟體套件\*\*

### ### Figurative presentation

package an idea  
→ \*\*包裝 / 塑造一個想法\*\*

### ### Person/product

the whole package  
→ \*\*條件俱全的整體\*\*

The common thread is:

> multiple elements are \*\*contained, combined, or presented as one unit\*\*.

| **package content/information**     | 把資訊、媒體等整合整理成完整可用形式                    |

|                                       |                     |  |
|---------------------------------------|---------------------|--|
| <b>**the whole/complete package**</b> | 各方面優點 / 條件都具備的人或事物  |  |
| <b>**packaged — physical**</b>        | 已包裝好的               |  |
| <b>**packaged — figurative**</b>      | 經刻意塑造、整理或行銷呈現的      |  |
| <b>**part of the package**</b>        | 某整體情況中自然附帶、難以分開的一部分 |  |

---

## # Passage recap

> “I would need to think about ingredients, **\*\*packaging\*\***, food safety, delivery...”

Here:

**\*\*packaging\*\*** = **\*\*the materials and presentation used to contain, protect, and sell the desserts\*\***

Best Traditional Chinese:

\* **\*\*包裝\*\***

\* **\*\*包裝材料\*\***

\* **\*\*產品包裝設計\*\***

Natural contextual translation:

**\*\*我需要考慮食材、包裝、食物安全、送貨安排等。\*\***

## ### Passage MCQ-ready meaning

**\*\*packaging\*\***

= **\*\*the materials and containers used to wrap, protect, present, and transport a product\*\***

**\*\*包裝 ; 包裝材料\*\***

The most important learner distinctions are:

> **\*\*a package\*\***

> → 一個包裹

> **\*\*packaging\*\***

> → 包裝材料 / 包裝設計

> **\*\*package the cookies\*\***

> → 把曲奇包裝好

> **\*\*package deal\*\***

> → 套裝方案

> **\*\*salary package\*\***

> → 薪酬福利組合

> **\*\*software package\*\***

> → 軟體套件

> **\*\*package an idea\*\***

> → 把一個想法**\*\*包裝 / 塑造成特定形象\*\***

So the passage uses the **\*\*physical product-packaging\*\*** branch, but the family extends very productively into commercial, employment, travel, computing, and figurative presentation contexts.
