CL. POSITION IN YOUR PASSAGE CONTEXT

Although **position** itself does not appear in the passage, several senses are highly relevant to

the topic:

- > car dealers hold a market position
- > government can take a policy position
- > families may not be in a position to install chargers
- > firms can position EVs as practical family cars
- > investors may hold positions in EV companies

This is why ****position**** is an excellent database word despite not being a top initial scan candidate.

CM. CORE SEMANTIC MAP

The broad core is:

- > ****where someone/something stands****

From that physical idea, English extends metaphorically:

physical

- > position of a car

body

- > sitting position

job

- > position in a company

status

- > social position

opinion

- > position on an issue

situation

- > difficult position

ranking

> second position

finance

> investment position

marketing

> brand positioning

strategy

> position yourself for success

This is a classic example of one spatial concept expanding into abstract domains.
