= uncertain about oneself and needing reassurance
****缺乏自信的；沒有安全感的****

Examples

1. He felt ****insecure**** about his appearance.
他對自己的外表感到****沒有自信****。
2. She became ****insecure**** in the relationship.
她在這段關係中變得****缺乏安全感****。

Key contrasts

47. security vs safety

****safety****

= condition of being protected from physical danger, injury, or accidents

****安全****

****security****

= protection especially against deliberate threats, crime, unauthorized access, loss, etc.; also broader stability

****保安 ; 安全保障****

Compare:

> food safety

> 食品安全

> airport security

> 機場保安

There is overlap, but they are not always interchangeable.

48. security vs protection

****protection****

= act or means of protecting someone or something

****保護****

****security****

= protected condition ****or**** the systems/personnel that provide that protection

****安全保障 ; 保安****

49. security guard vs police officer

****security guard****

= employed to protect a specific property, building, venue, organization, etc.

****保安員****

****police officer****

= member of the official police service with law-enforcement powers

****警察****

A security guard is not automatically a police officer.

50. security vs stability

****stability****

= condition of remaining steady and not changing suddenly

****穩定****

****security****

= feeling or condition of being protected from loss or threat

****保障 ; 安全****

Compare:

> economic stability

> 經濟穩定

> financial security

> 財務保障

51. security vs collateral

****collateral****

= specific asset pledged against a loan

****抵押品****

****security****

= can also mean property/assets offered as protection to a lender; broader legal/financial term

****擔保 ; 抵押品****

In many lending contexts they overlap substantially.

52. security vs securities

This distinction is crucial.

****security****

can mean:

> protection

> ****安全 / 保安****

or in finance:

> one tradable financial instrument

> ****一項證券****

****securities****

very often means:

> shares, bonds, and similar financial instruments

> ****證券****

So:

> building security

> 大樓保安

but:

> trade securities

> 買賣證券

53. secure vs safe

****safe****

= not in danger

****安全的****

****secure****

= protected, firmly fixed, or stable against loss/threat

****安全受保護的；穩固的****

Compare:

> The children are safe.

> 孩子們安全。

> The door is secure.

> 門已鎖好 / 安全牢固。

Meaning map

The core idea of **security** is:

protection against danger, loss, or uncertainty

From this develops:

A. Physical protection

Passage

security guard

→ **保安員**

Building

building security

→ **大樓保安**

Equipment

security camera

→ **監控攝影機**

Screening

security check

→ **安全檢查**

B. Psychological / practical stability

Emotional

sense of security

→ **安全感**

Employment

job security

→ **工作保障**

Money

financial security

→ ****財務保障****

C. Financial guarantee

Deposit

security deposit

→ ****按金 / 保證金****

Loan

property as security

→ ****抵押品 / 擔保****

D. Financial markets

Security

a bond/share as a security

→ ****證券****

Securities

financial instruments collectively

→ ****證券****

E. Technology

Computer security

→ ****電腦安全****

Cybersecurity

→ ****網絡 / 資訊安全****

Data security

→ ****資料安全****

The family then continues into **secure**:

> secure building

> → **安全受保護的大樓**

> secure job

> → **有保障的工作**

> secure the rope

> → **繫牢繩子**

> secure a contract

> → **取得合約**

So the family is broad because the underlying idea moves between:

protection → stability → guarantee → firmly hold → successfully obtain

Passage recap

> “It was Mr Leung, the elderly ****security guard**** from their estate.”

Here:

****security guard**** = ****a person employed to protect a building or property and monitor it for danger, theft, or unauthorized entry****

Best Traditional Chinese:

* ****保安員****

* ****警衛****

Natural contextual translation:

****原來是屋苑那位年長的保安員梁先生。****

Passage MCQ-ready meaning

****security**** in ****security guard****

= ****protection of a building, property, or people from danger, theft, unauthorized entry, etc.****

****保安；安全防護****

The major learner splits are:

> ****security guard****

> → ****保安員****

> ****airport security****

> → ****機場保安****

> ****sense of security****

> → ****安全感****

> ****job security****

> → ****工作保障****

> ****security deposit****

> → ****按金 / 押金****

> ****property as security****

> → ****貸款抵押品 / 擔保****

> ****computer security****

> → ****電腦 / 資訊安全****

and then the finance meaning changes dramatically:

> ****a security****

> → ****一項證券****

> ****securities****

> → ****股票、債券等證券****

The related verb/adjective ****secure**** also deserves special attention:

> ****secure building****

> → ****安全受保護的大樓****

> ****secure the rope****

> → ****把繩子繫牢****

> ****secure a contract****

> → 成功****取得合約****

So in the passage, ****security**** stays firmly in the ****physical protection / personnel**** branch: Mr Leung is the person employed to help keep Kelvin's residential estate safe.
