Key contrasts

26. academic vs educational

academic

= related to formal study, scholarship, subjects, or university work

學術的；學業的

educational

= related to education generally or useful for learning

教育的；有教育意義的

Compare:

> **academic performance**

> 學業表現

> **educational programme**

> 教育計畫

A documentary can be **educational** without being **academic**.

27. academic vs intellectual

academic

= connected with formal study or scholarship

intellectual

= connected with serious thinking, reasoning, or ideas

智識的；思考性的

Compare:

> an **academic qualification**

> 學歷資格

> an **intellectual challenge**

> 思考上的挑戰

28. academic vs scholarly

scholarly

= showing deep, serious academic research or knowledge

學術性的；學問深厚的

academic

is broader.

Compare:

> an **academic course**

> 學術課程

> a **scholarly article**

> 高度學術性的研究文章

29. academic vs theoretical

theoretical

= concerned with principles and ideas rather than practice

理論的

academic

can mean theoretical in some contexts, but more commonly refers to education/scholarship.

Compare:

> an **academic researcher**

> 學術研究人員

> a **theoretical model**

> 理論模型

30. academic vs practical

****academic****

can refer to formal/theoretical learning.

****practical****

= concerned with real-world action or application

****實際的；實用的****

This contrast is directly relevant to the passage:

> academically brilliant

>

> * practical intelligence

Ms. Lau has both:

* formal subject mastery

* real-world problem-solving ability

Meaning map

academically gifted	在正式學習和學科理解方面特別有天分
academically brilliant	在學業 / 學術表現與理解方面極為出色
academia	大學研究、教學與學術活動構成的學術界

Passage recap

> “First of all, she is **academically brilliant**.”

Here:

academically = in terms of formal study, subject knowledge, and intellectual performance

Best Traditional Chinese:

* **在學業上**

* **在學術方面**

* contextually: **學術能力非常出色**

Natural contextual translation:

首先，她在學術上真的非常出色。

Passage MCQ-ready meaning

academically

= with regard to school, university, formal study, or scholarly performance

在學業上；在學術方面

And the underlying adjective:

academic

= relating to formal education, study, scholarship, or research

學術的；學業的

The passage contrasts this with broader forms of intelligence:

> **academically brilliant**

> → 學術 / 學業能力極強

but also:

> **practical intelligence**

> → 實際判斷與解決問題能力

> **emotional intelligence**

> → 理解與處理情緒的能力

So **academic** here marks only one dimension of Ms. Lau's intelligence.
