Key contrasts

26. manage vs control

****control****

= direct or regulate something

****控制****

****manage****

= broader: organize, handle, supervise, and keep something functioning effectively

****管理；處理****

Compare:

> control the temperature

> 控制溫度

> manage a business

> 管理生意

27. manage vs handle

****handle****

= deal with a task, problem, or situation

****處理 ; 應付****

****manage****

= can mean the same, but also includes organization, supervision, and longer-term control

Compare:

> handle a complaint

> 處理投訴

> manage customer orders

> 管理顧客訂單

28. manage vs run

****run****

= operate or be in charge of a business, organization, event, system, etc.

****經營 ; 運作****

****manage****

= emphasize organizing and controlling day-to-day activities and resources

****管理****

Compare:

> run a bakery

> 經營烘焙店

> manage the staff and orders

> 管理員工和訂單

29. manage vs cope

****cope****

= successfully deal with a difficult situation

****應付；撐得住****

****manage****

= can mean cope, but is broader

Compare:

> cope with stress

> 應付壓力

> I can manage.

> 我應付得來。

30. manage to vs can

This distinction is very important.

****can****

= have the ability or possibility

****能夠****

****manage to****

= actually succeed in doing something, often with difficulty

****設法成功做到****

Compare:

> I can finish it.

> 我能完成。

> I managed to finish it.

> 我****總算成功完成了****。

31. manage to vs succeed in

Both mean success.

****manage to****

= more conversational and often implies some difficulty or effort

****設法做到****

****succeed in****

= more neutral/formal statement of success

****成功做到****

Passage recap

The passage gives us **two different senses** of the same word family.

A. “whether I could **manage orders consistently**”

Here:

manage = **organize, control, and handle something effectively**

Best Traditional Chinese:

* **管理** *

* **處理** *

* **應付** *

Natural contextual translation:

以及自己是否可以穩定地處理訂單。

MCQ-ready meaning

manage

= **to organize, control, or deal with something successfully**

管理；處理；應付

B. “If I ever **manage to start it**...”

Here:

manage to = **succeed in doing something, especially despite difficulty**

Best Traditional Chinese:

* **設法做到** *

* **成功做到** *

* **總算做到** *

Natural contextual translation:

如果將來我真的能成功把它做起來.....

MCQ-ready meaning

****manage to do something****

= ****to succeed in doing something, often despite difficulty****

****設法做到；成功做到****

This is exactly why ****manage**** is such a strong polysemy candidate:

> ****manage a business****

> → 管理生意

> ****manage the workload****

> → 應付工作量

> ****manage your money****

> → 管理金錢

> ****manage your emotions****

> → 控制情緒

but:

> ****manage to finish****

> → ****成功完成 / 總算完成****

The passage naturally demonstrates both major branches.
