Key contrasts

27. period vs time

****time****

= very broad concept of duration or moments

****時間****

****period****

= identifiable span or phase of time

****一段期間；時期****

Compare:

> I don't have enough ****time****.

> 我沒有足夠時間。

> It was a difficult ****period****.

> 那是一段艱難時期。

28. period vs stage

****period****

= span of time characterized by something

****時期****

****stage****

= one step/phase within a process or development

****階段****

Compare:

> a stressful period in my life

> 人生中一段高壓時期

> the final stage of the project

> 專案最後階段

They overlap, but ****stage**** emphasizes progression; ****period**** emphasizes duration.

29. period vs era

****era****

= long, distinctive historical time characterized by important features/events

****時代****

****period****

= broader and can be short or long

Compare:

> the digital era

> 數碼時代

> a three-month period

> 三個月期間

30. period vs phase

****phase****

= temporary stage within a process, often suggesting change

****階段；時期****

****period****

= more neutral term for a span of time

31. period vs full stop

****period****

= AmE term for “.”

****句號****

****full stop****

= BrE term for the same punctuation mark

32. period vs cycle

****cycle****

= complete repeating sequence

****循環****

****period****

= amount of time taken for one cycle

****週期****

This distinction is especially important in science.
