49. word vs phrase

****word****

= single lexical unit

****詞；單字****

****phrase****

= group of words functioning together but not necessarily forming a complete sentence

****片語；詞組****

Example:

> “pen” = word

> “fountain pen” = phrase/compound expression

50. word vs sentence

****word****

= one lexical unit

****sentence****

= grammatical unit usually expressing a complete thought

****句子****

A sentence normally contains one or more words.

51. word vs term

****term****

= word or phrase with a specific meaning, especially in a subject/domain

****術語 ; 用語****

****word****

= broader everyday category.

Compare:

> English word

> 英文單字

> scientific term

> 科學術語

52. word vs wording

****word****

= individual unit or, in plural, things said

****wording****

= exact way language is arranged to express something

****措辭****

This distinction is central to the passage:

> choose your **words** carefully
> ≈ pay attention to your **wording**

53. word vs message

message
= information or idea communicated
訊息

words
= the language used to communicate it

The same message can be expressed in different words.

Passage recap

> "...reminds me to slow down, think clearly, and **choose my words carefully**."

Here:

****words**** = ****the particular language and phrasing the speaker uses when expressing ideas****

Best Traditional Chinese:

* ****措辭****

* ****用語****

* ****說話方式****

Natural contextual translation:

****也提醒自己放慢一點、想清楚一點，並且更謹慎地選擇自己的措辭。****

Passage MCQ-ready meaning

****words****

= ****the particular expressions or wording someone chooses when speaking or writing****

****措辭；用語；話語****

The key distinction is:

> learn new ****words****

> → 學新單字

but:

> choose your ****words**** carefully

> → ****謹慎措辭****

In the passage, the speaker is not being reminded to choose better vocabulary for an English exercise. The idea is to ****think before speaking or writing and express thoughts carefully and deliberately****.
